

ST. JOHNS HERALD

AND APACHE NEWS

Vol. 23.

ST. JOHNS, APACHE CO. ARIZONA, DECEMBER 13, 1906.

No. 14

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO
Quinine Tablets. Druggists refund
money if it fails to cure. E. W.
GROVE'S signature is on each
box. 25c.

**DO YOU WANT A \$20
SILK WRAPPER OR A
\$7 DOLL FREE?
DO YOU KNOW
WHERE YOU CAN
GET 'EM?
At SCHUSTER'S of course**

There are fourteen editors in
the new Missouri legislature.
Fourteen editors ought to be
able to show Missouri anything.

A GUARANTEED CURE FOR PILES
Itching, Blind, Bleeding, Pro-
truding Piles. Druggists are au-
thorized to refund money if PAZO
OINTMENT fails to cure in 6 to 14
days. 50c.

Recorder Jesus Peralta came
in from Blackrock, N. M., last
Friday, bringing along his
family and will remain here some
time.

And now some of the Apaches
so want to go on the warpath.

There is beginning to be serious
doubts, about the supply of
warpaths being equal to the
demand.

Ex-Supervisor Truax was over
from Adamana last week on
business at the County seat. He
came in home lately from Denver
and Broomfield, Colorado, where
he purchased a fine quarter
section of sugar beet land.

Mr. C. F. Murray came in from
Santa Ne, N. M., where he had
been in attendance upon court as
witness in an important case,
Monday, and continued to his
home in Springerville.

COMMUNICATION.

The hearing given a teacher
in Dist. No. 11, Friday resulted
favorably to the teacher in every
point. Mr. Robert Overson had
accused Miss Alice Berry of ex-
cessively whipping his boy, and
complained to Mrs. Greer who
talked to the accused teacher and
advised her to cease such pun-
ishment. Miss Berry denied the
accusation and demanded a hear-
ing, also refusing to cease her
mode of discipline, in such cases
as she deemed sufficient offense
to use the switch.

Miss Berry demanded a hearing
and was granted one; and all the
evidence given was absolute
proof of the falsity of the ac-
cusation. And chairman Wil-
liam Gibbons and Mr. Heap
declared Miss Berry totally ex-
onerated and given authority to
punish as she deemed advisable,
in as much as she was well aware
of the limit to which she could
go. And she was advised to
continue her discipline without
restrictions.

Mr. Overson stated that his
boy was physically unable to
attend school, but he desired him
to go and did not want him pun-
ished. Since the teacher was
wholly unaware of the boy's
physical condition and not at all
responsible for such condition,
she could not favor the boy.
Every child alike are subject to
the rules of school and if any are
unable to comply therewith in
deportment must suffer the pen-
alty, or if physically unable
should be kept out of school.

BIGGEST ARTIFICIAL LAKE.

A Washington dispatch of re-
cent date says:

The reservoir to be created in
New Mexico north of Las Cruces
by the great Engle Dam will
have a capacity of 2,000,000 acres
feet, or twice that created by the
Assuan Dam in Egypt, and in
the world.

Owing to the great demand
made on the reclamation fund in
other localities, the money for
this entire project is not yet
available. Recognizing the im-
portance of early action, how-
ever, the secretary of the in-
terior, on December 2, 1905,
allotted the sum of \$200,000 for
the immediate construction of
that portion of the project known
as the Leasburg Diversion. It
is this dam with canal to connect
it with the old Las Cruces system
for which contract has just been
let. Work will be pushed rapidly
during the winter, and it is
hoped that water can be supplied
to 15,000 acres in Mesilla Valley
during the irrigating season of
1907.

The secretary of the interior
has executed a contract on behalf
of the United States, and ap-
proved the bond of Contractor P.
Nelson of San Antonio, Texas,
for the construction and comple-
tion of this diversion dam and
canal.

The contract calls for the con-
struction of six miles of canal,

with 321,000 cubic yards of ex-
cavation, the furnishing and driv-
ing of 35,000 linear feet of round
piles and 170,000 feet board
measure of sheet piles, and 2,600
cubic yards of concrete for the
sum of \$100,180.50

The letting of this contract
launches the government on the
great work of constructing the
Rio Grande project, one of the
largest and most expensive of
the irrigation works of the re-
clamation service.

This project contemplates the
construction of a huge dam west
of Engle, New Mexico, to store
water for the irrigation of 180,-
000 acres, 110,000 of which lie
in New Mexico. The cost of the
entire system is estimated at
\$7,200,000. The main item of
cost is the dam, which will re-
quire 300,000 barrels of cement,
a large amount of machinery,
gates, etc., entailing a heavy
outlay for freight. It is estimat-
ed that the dam will cost approxi-
mately \$5,300,000. It will be
225 feet high, 190 feet thick on
the bottom, and 20 feet on top.
It will be 1150 feet long on top
of the crest.—Chieftain.

My Magazine, "INVESTING FOR
PROFIT" (which I'll send free) is
worth \$10 a copy to any man who
intends to invest any money,
however small; who has money
invested unprofitably or who can
save \$5 or more per month, but
who hasn't learned the art of
investing for profit.

It demonstrates the REAL earn-
ing power of money—the knowl-
edge financiers and bankers hide
from the masses.

It shows how to invest small
sums and how to make them grow
into fortunes—the actual pos-
sibilities of intelligent invest-
ments.

It reveals the enormous profits
bankers make and shows how
one can make the same profits
safely.

It explains how stupendous
fortunes are made and why they
are made—how \$1,000 grows to
\$22,000.

To introduce my magazine
write me NOW, mention this
paper, and I'll send it SIX MONTHS
FREE.
